Dear Sirs,

This letter is to attest to the fact that I have personally toured a sound system designed and installed by Summit Integrated Systems. I found the design to be based on proper system design practice, demonstrating an understanding of the fundamentals of sound system design. The installation was exceptionally clean and in compliance with accepted wiring standards and practices.

I would not hesitate to consider Summit Integrated Systems for the design and/or installation of a sound reinforcement system of any size.

Sincerely,

A handwritten signature in black ink, appearing to read "Pat Brown". The signature is written in a cursive style with a large, stylized "P" and "B".

Pat Brown
